

The [Coir Weed](#) Mat is designed to **help control weeds** that crop up in your area or location. These mats can be placed around vegetation such as trees and plants to form an effective weed control area. Since they are made from natural fibers, these mats **will biodegrade to provide mulch** around your plants to further help with growth.

#### Perfect for use in:

- Weed Control
- Tree Plantations
- Biodegrades to form Mulch
- Soil Enrichment
- Perennial Slope Landscaping
